This is us

Holland International School (former Hollandse School Limited) is a school that provides excellent primary school education in the Dutch and English language. With attention to individual learning needs in a safe and tight-knit community, each child will soon feel at home. With more than a century of educational experience in Singapore, Holland International School creates a rich learning environment, where students are empowered to achieve their best.

At Holland International School we offer two learning streams with an international focus and based on one Dutch-rooted approach to education. Within the English Stream, the language of instruction is English for both the English National Curriculum and the International Primary Curriculum (IPC). The Dutch Stream offers a mirrored learning experience, with the Dutch National Curriculum and IPC delivered in Dutch. As part of the daily curriculum, children also have access to either Dutch or English language lessons.

Our school's culture and education approach distinguish us from other International Schools in Singapore. Our students learn in an inquiry-based yet structured way. They are given ownership of their learning which allows them to set their own goals and pursue areas of personal interest. At the same time, they are encouraged to be social learners who are global-minded. Teachers tailor lessons to the different learning needs and talents of their students, to empower each pupil to achieve their best.

Students at the Holland International School are not overloaded with homework, which allows them free time to enjoy social activities, sports or simply to relax! We believe this is an essential part of a happy childhood that sparks creativity and a love for learning. This is how we create a unique learning journey.
