

In March 2023, the Dutch Inspectorate of Education conducted quality research for the HIS. The Inspectorate visits Dutch schools abroad once every four years.

We are very proud of the outstanding results of the visit. The inspector acknowledged our true belief that for high quality learning to take place, the school should be a happy place with inspiring teachers who make learning fun.

We will keep you informed about how we will incorporate the recommendations from the inspection. The full report in Dutch is available at www.hollandinternationalschool.sg.

General

Holland International School is an ambitious school with well-qualified teachers focused on delivering excellent education. They create a safe, structured environment and seamlessly integrate new students. Expectations are high, and teachers motivate and challenge students with a broad, inspiring curriculum.

Educational and Teaching Process

- ✓ The school has a high quality of education. The curriculum is broad and motivating.
- ✓ IPC and cooperative learning are the foundation in all groups.
- ✓ The development of the students is closely monitored and targeted help is provided.

School Culture

- ✓ The school provides a safe school environment.
- ✓ New students quickly feel at home.
- ✓ The pedagogical climate is pleasant, supportive, and ambitious.
- ✓ Cooperative learning has a positive effect on the classroom climate.

Educational Outcomes

- ✓ Educational outcomes exceed expectations.
- ✓ There is a strong emphasis on language development.

Quality Assurance and Ambition

- ✓ More focus on explicit choices and prioritising more effectively.
- ✓ The school has a stable and competent team.
